

# TEACHER'S DAY CELEBRATIONS 2019

NIFT, Chennai celebrated Teachers day with much fanfare on 06/09/2019.

Special events designed for the faculty dotted the teacher's day celebration. Faculty members across all departments were mixed up into seven different teams. Each team was assigned with a colour theme to be followed. Director Maam's participation added further fillip to the already overflowing spirit of the organisers, students and the teachers as well.

The whole courtyard wore a festive look as the decorations team had gone beyond expectations in colourfully draping used dupattas to liven the atmosphere. Beautifully handmade flower decorations made from used newspapers adorned the trees in the courtyard, each carrying the message of love for the teacher's by the students. A huge flex containing the digital images of all the faculty members was unveiled to the great cheer of the audience.

The evening celebrations commenced with the presentation of a personalised framed digital image of the faculty designed by the students to all faculty members as a token of affection and mark of their love. Also presented was a chocolate brownie made by a student of BFT and a message towards maintaining a clean and green campus in the form of a colourful glass bottle - all packaged in a hand painted bag with a hand written message for each faculty by the students!!!

The Music General Elective students then revved up the celebrations with an energetic flash mob, which was followed up by electric performances of dance and music team of our college. After setting the tempo, it was time for the games and fun activities planned for the faculty members.

The sportive spirit displayed by the faculty members during the course of the games was amazing- whether it was a tough one of making the water pyramid, or the fun maggi eating- the students encouraged and egged on each team to perform better than they anticipated. The active and enthusiastic participation of faculty members really had enlivened the games and made them a pleasure

to watch. All the teams fought tooth and nail in physical activity oriented games. No holds barred gamesmanship was unleashed and every game turned cliff hanger and went on to a nail biting finish.

The GREEN team emerged overall winners and the RED team got a special mention for really well coordinated themed dressing.

The beautiful cloudy evening ended with an impromptu dance performance by all faculty members who shed their inhibitions and participated with verve and much gaiety. The day ended with huge smiles on the faces of students and faculty members and with a feeling of great camaraderie. The celebrations really opened up hitherto unknown talents of the faculty to the students and we fondly hope, this camaraderie between teachers and students will further evolve and get strengthened and will benefit the students in the pursuit of their goals.
