

Corrigendum

This is with reference to E-tender no NIFT/DC/PO/591/Infrared dyeing/TD/18 dated 27th June 2018 for procurement of INFRA RED DYEING MACHINE. In Technical specification, the maximum temperature is mentioned 200 ° C for dyeing polyester & other synthetic fabric samples.

The revised specification w.r.t Temperature and Rotations of Beakers may be read as follows:

Temperature 25 to 140 °C

Rotation of Beakers = 360 degree or lateral movement to ensure even dyeing

Rest specification and T&C mentioned in Tender document will remain the same.
