

## Message from Director NIFT Mumbai for Graduation Show 2020

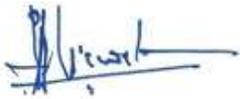

On behalf of the National Institute of Fashion Technology, Mumbai, I congratulate and extend my well wishes to the class of 2020. My proud NIFTians, in spite of the present unusual circumstances you not only have successfully completed your graduation, but have given a splendid overall performance. "What an achievement this is."

This is not an ideal situation to be in for anyone, especially young graduates like you. A quote that really stood out to me is "Adversity introduce a man to himself". Remember, you young graduates!; live in the moment, live for today, have dreams and set the goals but at the same time be adaptable, flexible and work hard. This time of test have taught us this valuable lesson.

At this moment, it's important to recognized the efforts, contribution, sacrifices of all those who have done for your overall development... the faculty members, industry experts, non teaching staff and mainly the parents for moral as well as financial support; friends for their understanding; during these challenging but rewarding years.

In the coming years, I encourage you to come back to your 'Alma matter' and support in college activities, programs and events. Also by abreacting us with your professional and personal achievements. We always look forward and take great pride in the achievement of NIFTians.

Congratulations ones again!! Best wishes, stay safe and healthy!!

Pavan Godiawala,  
Director, NIFT Mumbai.
