If in any case the parental income has changed during the period while the student is still studying at NIFT and is now in the income bracket of SARTHAK eligibility, the student will have to meet the CAC of the Campus and provide justification with proper documents. Based on the proof of revised parental income, the CAC will get the parental income in the student's profile changed on CMS with the help of Campus ERP personnel. The student will then be eligible to apply for the scholarship scheme."
