### ADMISSIONS

The National Institute of Fashion Technology welcomes you partake in a shared vision for the future. Our students are equipped with the latest information in innovation and technology in the entire value chain of design and fashion. They are encouraged to respect the rich Indian Heritage, and derive the best from our way of life, and our own traditional arts and handicrafts. We take incredible pride in instilling ethical values in our students that have gone on to make a mark, and have positively influenced the industries we serve and our society in general. NIFT has continuously strived to adopt the global standards in fashion education by aligning its teaching methods to interactive and evolving education systems, aimed at creating a unique learning experience that blends heritage, cultivates aesthetic virtuosity in an environment of freedom of inquiry and cognition.

The revamped curriculum focuses on multidisciplinary learning, to the students to solve real life challenges but also facilitate them to carve out new and unique paths for themselves. application - in addition to celebrating diversity and fostering inclusivity, sensitising students to cultural and social contexts, which is vital in personality building and develops individuals as change agents in the society. The alumni of NIFT are recognised as adept professionals in a myriad of creative fields, and their success stories are a source of pride for the institute. Industry-Academia interfaces throughout the course provide a cutting-edge learning experience to our students. The Industry oriented learning environment through internships and Graduation projects allows for real time learning for the students. The initiative of Involving students and faculty in cutting edge projects creates the platform for embedded research and learning opportunities. The students and our faculty at NIFT are adept in successfully navigating a complex, volatile and uncertain world of fashion technology, retail and design.

We hope you will undertake this exciting journey with us as we strive to create thought leaders for the future empowered with empathy, vision and a passion for design.

### Message from Chairman

Ravi Capoor, IAS Chairman

### Foreword

We began our journey way back in 1986, when the very notion of 'fashion education' was relatively new to India and often viewed with a pinch of cynicism. Ideas and presumptions emerged around the importance and the role that, fashion has been playing in the Indian economy. We continued to navigate with a firm belief in our vision, and conviction in the pivotal role we play in shaping the future of India.

Today, NIFT is a premier institute of Design, Management and Technology in the field of Fashion in India and is well recognised worldwide. Our academic practices continue to lead infinite possibilities into the future, solving design challenges on our way.

Relevant industry exposure throughout the course study provides a cutting-edge to the learning experiences of the students. The body of learning encompasses knowledge, skill and practical application - in addition to development of sensitivity to cultural and social contexts, so vital in today's global scenario. NIFT provides a unique environment for nurturing the creative talent in the field of design and other associated fields in fashion.

I welcome you to join the NIFT community and be part of this exciting journey.

Shantmanu, IAS Director General

National Institute of Fashion Technology as we know today, stands as a result of decades of hard work, and has sucessfuly shaped a new sector of fashion in the Indian economy. Today NIFT is ranked at 12th position amongst in fashion institutes around the world. Over the years institute has produced illustrious alumni in the creative field of fashion. Most revered fashion designers and top industry professionals in fashion world proudly call NIFT their alma mater.

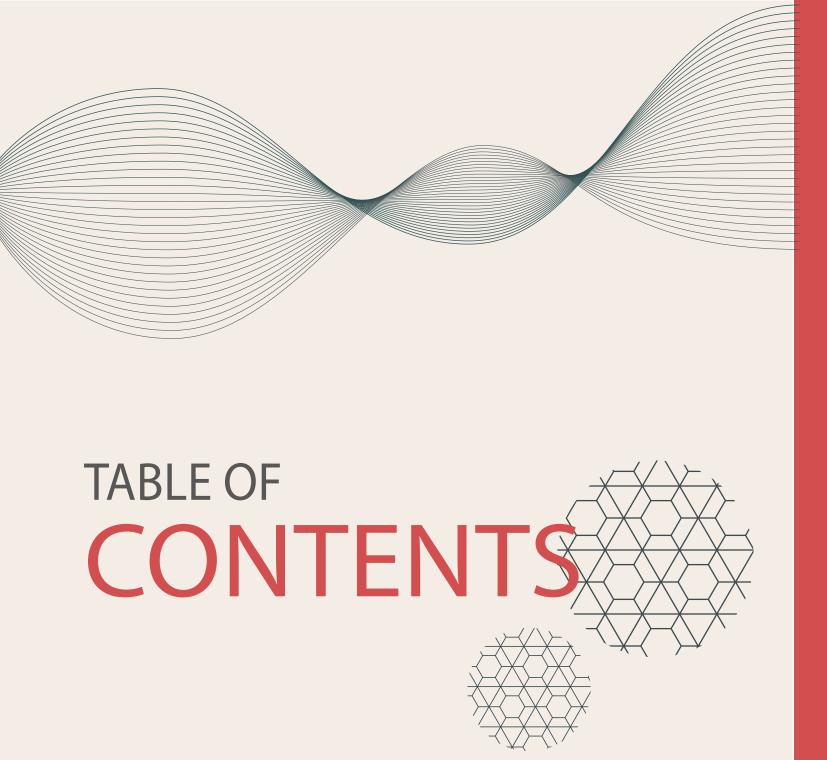

National Institute of Fashion Technology has always been ahead of its times. Not only the institute pioneered at imparting fashion education in India, the institute has also mainstreamed craft communities through engaging students in ethnographic studies; as well as paid special interest in holisticly developming its students.

Keeping in line with the same guiding principles the institute recently deconstructed the old curriculum to meet the new requirements of the everchanging fashion industry. The new curriculum is focused on promoting interdisciplinary studies, creating emotional intelligence amongst students, and is in tandem with the new education policy laid by the Govt. of India.

The institute welcomes NIFT aspirants from all walk of lives with open arms. When you join NIFT always remember, you have not arrived but your journey has just begun!

### The Institute

The National Institute of Fashion Technology is a leader in fashion education with the ability to integrate knowledge, traditional arts, contemporary thought, academic freedom, innovations in design & technology and creative thinking to continuously upgrade its curriculum to address the changing needs of the industry. Its history of more than three decades at the pinnacle of fashion education stands as a testimony to its focus on core values where academic excellence has been nurtured. The institute has stood as a beacon of industry-academia engagement and a key enabler in developing competent professionals.

The National Institute of Fashion Technology (NIFT), set up in 1986 under the Ministry of Textiles, Government of India, is a Statutory Institute governed by the NIFT Act 2006. Bringing in a wide range of aesthetic & intellectual orientations, the early instructors included leading progressive scholars from Fashion Institute of Technology, New York, USA.

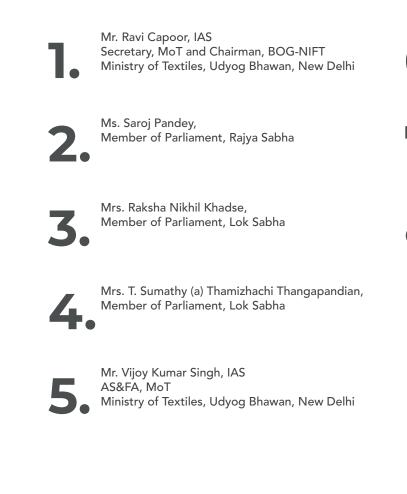

Academic inclusivity has been the key thought in the expansion plans of the institute. NIFT, today, has spread its wings across the length and breadth of the country. Through its 17 professionally managed campuses, National Institute of Fashion Technology provides an excellent environment to its students from different parts of the country to achieve their highest potential through the programmes offered. Since the early years of its inception, the institute has provided a firm foundation in fashion education in the domains of Design, Management and Technology. Since then, NIFT has continued to set and achieve higher academic standards.

The in-house faculty was drawn in from a distinguished group of intellectuals who put forth a sense of dynamism creating a pathway to effective learning. Pupul Jaykar Hall at NIFT headquartered in New Delhi is a reminiscence of many educational thinkers and visionaries who have been instrumental to the institute's road map to success. NIFT regularly strengthens its academic strategy. Invigorating thought leadership, research stimulus, industry focus, creative enterprise and peer learning have reinforced the institute's academic bedrock. Fostering a new generation of creative thinkers, the institute is empowered to award Degrees in undergraduate, post graduate and doctoral studies. In pursuance of its objective of providing comprehensive worldclass academic learning environment, the institute has entered into strategic alliances with leading international institutes.

### Pedagogy

### Academic Transaction

The methodology of academic transaction at NIFT is aimed at giving the student a holistic understanding of subject, context and environment, and the ability to innovate and adapt. Study at NIFT is a combination of contact hours, studio practice, group work, and self study. It also provides an immersive learning experience, with emphasis on learning from doing and learning through reflection.

### Interdisciplinarity

A range of interdisciplinary minors have been made available Holistic understanding requires assimilative evaluation as to the students to choose from. The knowledge and skill well. Therefore the curriculum is peppered with assignments sets acquired will stand them in good stead in their future that assess the ability of the student for synthesis of his/her careers, and will either enhance or provide alternate pathways. knowledge and skillsets across a combination of subjects.

### **Specialisation**

Students are given the opportunity to deepen their understanding of a part of their core majors through a deepening specialisation, which will give them a further edge in specific industries. Floating credits are also offered for the student keen on learning beyond the regular curriculum.

### The Industry Connect

The new curriculum enhances the NIFT engagement with industry, through institutionalising industry visits, visits to exhibitions and fairs, part transaction of subject in an industry environment, industry mentorship and live classroom projects based on an industry brief.

### **General Electives**

An array of subjects from physical activities to socio cultural be it for product development, branding or marketing. studies to personality development and professional ethics have been woven into the course, and are transacted through Continuous Evaluation subject experts. The intent is to foster a climate of exploration and curiosity, to develop people skills, and to inculcate the ability The courses have more creative potential and flexibility and are for lifelong learning. Learning outcomes have been carefully geared towards producing well-rounded graduates with expertise articulated, not just for the full course, but for every semester and in millennial skill sets. The evaluation process has to be nuanced subject. Assignments and evaluation are calibrated to capture enough to appreciate the subtleties of creativity and innovation, the extent of achievement of the learning outcomes envisaged. but robustenough to be fair and impartial in assessment. The system of evaluation in NIFT meets both these requirements.

### **Integrated Assignments**

### Academic Mentoring

Every student will have an academic mentor besides the subject mentor, who would be in a position to help the student better understand his/her strengths and areas of improvement, and to provide inputs for the student in their exercise of choice for selecting the deepening specialisations and interdisciplinary minors. This will be over and above the academic mentoring provided during internships and graduation projects.

### **Craft Cluster Initiative**

All students of NIFT will be given an immersive experience with a craft cluster. The experience includes lecture demonstration by master artisans, and visit to the craft cluster to understand not only the techniques and practice, but also the socioeconomic and cultural moorings of the craft. There will be opportunities for co creation and design infusion,

### Faculty

Faculty at the institute articulates the expertise & dynamism that inspires the students to realize their full potential. NIFT faculty builds critically engaged teaching practices while testing its

relevance through a wide range of projects and contexts. Students enhance their knowledge and develop their talent by working with the faculty on various real life projects gaining invaluable knowledge, experience and awareness on design application and industry dynamics. In the recent past, faculty & student teams have undertaken varied research and consultancy and training projects.

NIFT faculty is the strategic enabler in transforming the vision of the institute into reality. Trained at some of the leading fashion institutes of international repute, the faculty brings to the classroom professional capabilities, wide exposure and years of hands-on industry experience. Engaging in doctoral studies, the faculty is committed to grow in their profession.

The faculty constantly upgrades their knowledge & skills, creating a stimulating learning environment for students. Faculty paper presentations in the international circuit, participation in seminars & symposia of high repute enable world class academic discourse and knowledge transfer. The strategy shaped by the faculty aims at a distinctive ability to create an influential research-intensive environment. Effectively playing the pathfinder's role, the faculty pool is working towards enhancing the research profile of the institute, fostering a new generation of 'leaders of the future'.

### Fashion Design

A flagship programme of NIFT, the Fashion Design programme has played an influential role in the growth of the Indian fashion industry. In the 3 decades of its existence the graduates of the department have made remarkable presence in the Indian as well as global fashion scenario. The four-year program in Fashion Design aims to produce dynamic design professionals who can face the challenges of the ever-changing fashion industry. It also equips them with strong creative and technical skills related to the field of fashion, which empower them to adapt to an evolving fashion biosphere. The curriculum incorporates combination of experiential learning and hands-on training that enables integrated development.

The department closely works with fashion professionals to create a sensational series of design professionals to evolve a unique fashion identity universally relevant and acceptable, for a global audience. Holistic inputs on generic design with focused approach towards apparel inculcates the ability to develop and channelize creativity. The curriculum hones design sensitization, which balances global fashion aesthetics with an Indian soul. It addresses the needs of the export market as well as both couture and pret-a-porter in India, expanding and

categorizing apparel design into niche segment.

In tandem, with the industry requirements where design thinking plays a pivotal role the students are trained to anticipate and address relevant concerns and issues. Study of historical and contemporary fashion influences provide a concrete foundation for focused design interpretations and inspirations. A logical, sequential hands-on experience enables students to conceptualize design, make patterns, drape and construct garments of impeccable quality. In tune with this focus the major areas of study in the department are identified as Design & illustration, Fundamentals of apparel development, Value addition for apparel and History & contemporary fashion. This multidisciplinary approach focuses upon self-learning and independent thinking that expands perceptual perspectives that relate classroom teachings with practical learning.

In addition to the well-defined major areas of study within the department, Luxury and couture or Image creation and styling are identified as areas of deepening specialization for the students pursuing fashion design. The flexibility in choosing the specialization based on the personal area of interest adds to the wholesomeness of the program wherein students choose to specialize in any one area.

The department of Fashion Design can well be termed the base at which the institution has built its laurels. Students gain valuable insight into the broad spectrum that Indian fashion encompasses through internships at leading fashion houses/ manufacturing units to improve knowledge and overcome the practical challenges faced. The course inculcates the traditional rural craftwork by working with indigenous rural artisans via the cluster program that inturn works towards the objective of design interventions. This homogeneity is evident in the final year through the graduating fashion collections, conceptualized and constructed by the students at the Design Collection showcase.

### Majors

The core domain areas of the department have been identified as Design & illustration, Fundamentals of apparel development, Value addition for apparel and History & contemporary fashion. Various subjects such as fashion design and illustration, pattern making, draping, garment construction, fabric fundamentals, sustainability crafts & fashion, history of Indian textiles, history of clothing, value addition- exports, retail, couture & pret etc., are offered under these broad areas. The subjects of study within each semester lead towards progressive learning from basic to advance levels of design and their interpretations over the 3 years of study in the department.

### **Deepening specializations**

### DS 1 : Luxury & Couture

This course examines luxury couture fashion with a focus on understanding the specific market, its design details and construction procedures. Spread over 4 semesters, students acquire Hi fashion sewing skills on suitable fabrics with application of relevant trims and embellishments for bridal, evening or occasion wear. Hand and specialty machine stitching, creative pattern cutting and fine fabric finishes applicable for creating women's and men's luxury range constitute the practice based learning under this specialization.

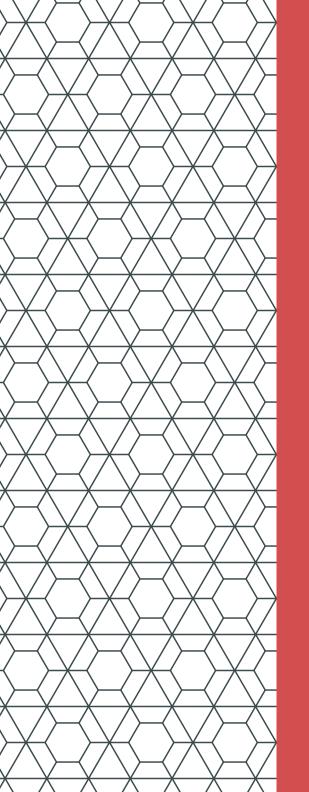

Students will be required to produce a learning dairy of the techniques discussed. They will leave the course with design journals focused on conceptualization, ideation, surface explorations, pattern developments, garment execution along with the complete look. This specialization envisages honing meticulous design detail with aesthetic and commercial knowhow for crafting luxury fashion products.

### DS 2 : Image Creation & Styling

This course provides insight into the business of image creation and styling in fashion. The course progresses along the areas of fashion society and culture, celebrity styling, fashion styling & image creation, costume for performing arts & celebrity couture & bespoke fashion, over semesters. It will challenge the students to work with real life instances as they learn to understand the needs of the client. The students will be exposed to professionals in the field and gain insights to practical situations. Students will leave the course with a portfolio of image building ideas which capture self-executed real/ hypothetical projects.

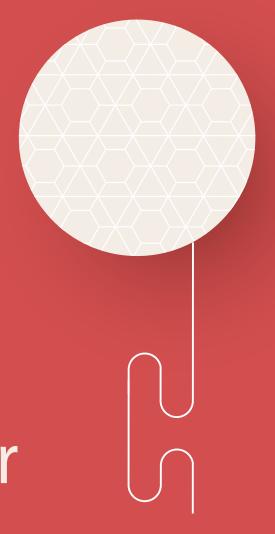

### **Career Pathways**

The programme prepares students for a wide range of careers in the textile and fashion industry like mills, export houses, buying agencies, design studios, handloom and handicraft cooperatives, NGOs, home and apparel retail brands and online stores as Designers, Merchandisers, Buyers, Managers, Home/Fashion Stylists and Trend Forecasters or work independently as Entrepreneurs.

B. Des Knitwear Design

### Knitwear Design

The Knitwear Design Department addresses the need of specialised design professionals for the Knitwear domain of Fashion Apparel & Accessories industry. The department provides students a comprehensive exposure towards designing and execution of Knitwear Fashion garments and products. The scope of curriculum encompasses multiple segments, from foundation garments to outerwear. Students are given inputs on the latest technological knowhow and detailed design methodologies to remain abreast with latest trends and forecast in fashion. The department enables students to grow as professionals who can handle all aspects of Knitwear Fashion, right from designing of fabric to product realisation.

Through four years of amalgamated exposure in knowledge and skill, a Knitwear Designer seeks to emerge with a blend of creative thinking, strong technical skills and a dynamic market orientation with respect to Flat Knits, Circular Knits and Computerised Knitting. The students acquire capabilities to work for all categories of Knitwear Apparels viz. menswear, women's wear, kids wear, active or sportswear, leisure wear, winter wear, lingerie and intimate apparels.

### Majors

In the new curriculum students will learn four major subjects, one subject from deepening specialisation area, one subject from interdisciplinary minor area, one general elective subject and one optional elective subject in every semester. The major subjects offered by Knitwear programme across semesters cover the broad areas of Knitting, Flat Pattern & Construction, Fabric Technology, Illustration and Presentation Techniques. Study and practice of crafts are also given due importance in all the semesters.

### **Deepening Specialisations (DS)**

The Department offers two Deepening Specialisation areas to choose from, by the names of Intimate Apparel and Sportswear.

### DS 1 : Intimate Apparel

This specialisation aims to provide opportunity to the students to specialise in the intimate apparel segment of Knitwear. This

shall enable students to understand and practice design process through thematic approach. The students shall learn to design concepts of intimate apparel collections taking inspiration from the latest trends, forecasts, design aesthetic and renowned peer works. It further provides scopes to develop intimate apparel products by learning specific pattern designing and construction techniques. This also provides exposure to specialised fabrics and trims used for intimate apparels. The students get opportunity to plan collections according to brand aesthetics and finally be able to come up with unique, creative design for intimate apparel collections.

### DS 2 : Sportswear

The Sportswear specialisation provides a unique opportunity for a knitwear design student to specialise in one of the most promising and challenging segments of the knitwear industry. The students would learn to conceptualise design aesthetics for diversified functional and aesthetic needs of different categories of sportswear. Understanding various user needs and performance expectations are important leaning targets for the students of this specialisation. Students shall learn specific pattern designing, specialised material handling and construction techniques for sportswear. Distinctive design projects for casual sportswear and active sportswear provide opportunity to conceptualise specific design goals and practically execute products to fulfil performance and aesthetic requirements.

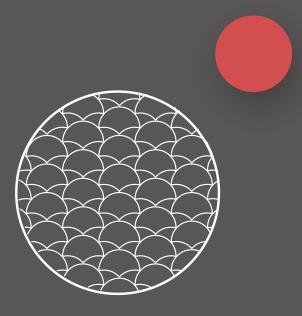

Apart from the Majors and Deepening Specialisations, the department also offers Industry Internship of 8 weeks in any Knitwear industry to develop practical knowledge in the industry. At the end of the programme, the student has the choice of undergoing a 16 weeks of Graduation Project in a Knitwear industry or to design and execute a creative Design Collection.

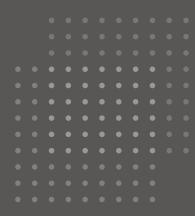

### **Career Pathways**

Career pathways for graduates of Knitwear Design Programme are Knitwear designers for all categories, Knitted Fabric Designer, Merchandiser, Stylist, Visual Merchandiser, Entrepreneur. Knowledge and skill in knitwear fashion along with the learning from interdisciplinary minor and the

The majors across the 8 semesters provide the requisite material & product knowledge, creative, technical and hand skills and

capabilities for explorative and real time applications of learning through the main core domains/major areas running across the semesters viz. Material Studies- Leather & Non Leather, Design & Fashion Studies, Apparel Production & Ergonomics, Luxury Product Design & Marketing, Apparel Design Studio, Drawing & Digital Design and Craft Cluster Initiatives (Integration). Supported and strengthened by the deepening specialisation, the majors ensure the student's portfolio building with multicategories of leather products and accessories which complete the apparel range. The Majors are also strengthened by the floating majors to ensure the requisite knowledge, skills and capabilities that are imparted at different levels with each graduating semester to create the necessary prepared design professionals for the industry. The whole learning of majors culminates into the Graduation Project in the final semester in the form of design collection projects either self or industry sponsored or graduation research projects sponsored by either self or industry or craft cluster or in the form of graduation research projects as per the career pathways opted by the students.

### **Deepening Specialisations (DS)**

The B.Des.(Leather Design) programme offers two Deepening Specialisations as secondary concentration of subjects that complements the Majors and provides in-depth knowledge related to the specialised Majors that lead to focused career pathways. These subjects are mandatory and are offered from Semester III to VII assigned with 3 credits of direct contact hours and 1 credit of studio practice. The two Deepening Specialisations offered in Leather Design are: (i) Product Design Studio and (ii) Footwear Design Studio.

### DS 1 : Product Design Studio

Students gain an in-depth understanding of the Product Design Footwear, Luxury goods and Hand Crafted products. Studio track across the semesters. It equips a student to take forward a product story from concept to prototyping with the Besides Design and Product Development pathway, three more understanding of the classification and identification of the allied career pathways - Design Production, Design Marketing range of products offered across the semesters. The student, & Merchandising and Design Communication have been through these semesters, either designs or understands and incorporated into the curriculum to spread the menu of career interprets the available category of products - flat and fancy choices across the various categories of the sector. These goods, small leathers goods, bags and solid leather goods. allied career pathways are envisaged and built up through the The product design or design interpretation is then translated Interdisciplinary Minors. This is to ensure that the curriculum into patterns through concepts of geometry and spatial offers various combinations with 6 fashion product sectors and understanding as an intermediary step towards the physical 4 career pathways for the students to choose from, as per their piece. Thereafter knowledge of fabrication techniques and interests and expertise. procedures are transferred for respective product category to help students to convert the patterns into physical pieces. By the close of the track, the student is efficiently armed with the knowledge and skills required to handle the leather product category.

### DS 2 : Footwear Design Studio

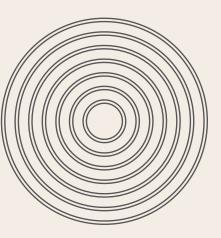

The Footwear Design Studio track equips the students to take forward a footwear story from concept to prototyping with the understanding of the classification and identification of range of footwear offered across the semesters. The track would see a student understand the anatomy of the foot, the different types of footwear & last, the anthropometrics involved in footwear design and construction. With broad categories of footwear with respect to gender and application/utility – male/ female and formal/semi-formal/casual/sporty, this track takes a student across the semesters through the sub categories-

open, closed and complex types of footwear. The student either designs or understands and interprets available design of footwear and then translates into patterns and completes the footwear through prototyping process. By the close of the track, the students are efficiently armed with the knowledge and skills to handle the footwear category as the deepening specialisation of their career path.

### **Career Pathways**

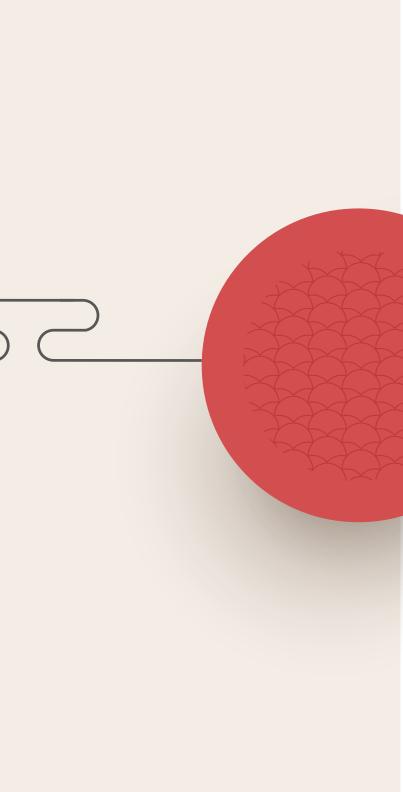

The curriculum of Leather Design programme of NIFT, with Design and Product Development as the core career pathway for LD graduates, caters to the different industry segments of Fashion Product sector, viz. Garments, Leather Goods, Footwear, Luxury goods and Hand Crafted products.

Textile Design

### Textile Design

From fibre to fabric, the design and development of textiles is the key to the business of fashion. The fast paced activities in the export and domestic sectors of the Indian apparel and home fashion industry demand professional textile designers who can think 'out-of-the-box' and yet adapt to the challenging business environment.

### Majors

The Textile Design Major equips students with knowledge and hones their creativity and understanding of design application for the industry. Weaving, print design and surface embellishment are the core textile subjects, using both hand and digital skills, to impart an extensive and versatile training for the students. The Major builds upon the integration of creative forces of design with textile technology, and also keeps in mind the historical, social and cultural contexts in which the designers work today. Textile innovation and emerging textile technologies are an integral part of the Major.

The Major offers ample opportunity to students to create,

experiment and innovate with materials. Alongside there is also emphasis on learning specialised software in order to explore digital and non-traditional approach to design, fabric structures and surfaces. The objective is to provide hands-on experience through practical set-ups and state-of-the-art technology. The department boasts of an array of studios including weaving, textile testing, surface design and CAD.

### Deepening Specialisations (DS)

### DS 1 : Textiles for Apparel & Fashion Accessories

The Deepening Specialisation 'Textiles for Apparel & Fashion Accessories' will strengthen students' understanding of the apparel segment and build up their vocabulary of fashion, apparel categories, details and trimmings used in garments and accessories. The specialisation focuses on intensive fabric studies in order to equip students to select appropriate fabrics for different apparel products, and comprehend the nuances of product development including costing and sourcing for a specific product. Specific industry linked design projects in core areas of prints, surface and weaves will provide real time experience to design fabrics for apparel and fashion accessories.

### DS 2 : Textiles for Home & Spaces

The Deepening Specialisation 'Textiles for Home & Spaces' will focus on home textile products for bed, bath, kitchen and living spaces, and other interior spaces. The students will gain an understanding of regional variations in home fashion in terms of colours, motifs, patterns and sizing of products. The specialisation entails to strengthen students' knowledge of fabrics and their properties in terms of performance and aesthetics for a specific end application. The critical know-how of product development from ideation to product realisation will be addressed through industry linked projects. The students will be adept to design prints, weaves and embellished fabrics for home textiles.

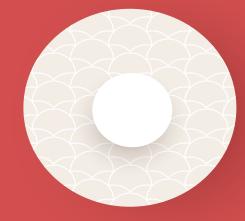

The Textile Design students undertake sponsored Graduation Project in their final year with the industry for a period of 16 weeks to develop design collections. The projects are sponsored by textile mills, export houses, home and apparel retail brands, designers or NGOs. The students are also given choice to undertake self-sponsored or research projects. The Graduation Project culminates with academic evaluation and final showcase of students' work in an annual show.

### **Career Pathways**

The programme prepares students for a wide range of careers in the textile and fashion industry like mills, export houses, buying agencies, design studios, handloom and handicraft cooperatives, NGOs, home and apparel retail brands and online stores as Designers, Merchandisers, Buyers, Managers, Home/ Fashion Stylists and Trend Forecasters or work independently as Entrepreneurs. The Textile Design alumni are doing collaborative and interdisciplinary work with world-leading industry partners such as Arvind Mills, Welspun, Bombay Dyeing, Madura Garments, Maspar, Portico, D'décor, Trident Group, Samsung, W for Woman, Biba, Satya Paul, Triburg, Sarita Handa Exports, Shades of India, Apartment 9, Blackberrys, Fabindia, Jaypore and with designers like Sabyasachi Mukherjee, Ritu Kumar, Tarun Tahiliani, among others. Some of the alumni are successful entrepreneurs, setting trends and making great strides in the fashion world.

B. F Tech Fashion Technology

### Bachelor of Fashion Technology

The four year course in Fashion Technology is aimed to develop industry ready professionals who are trained to understand the fundamentals of apparel business and to effect change in order to match the dynamism of business scenario. The course provides executive, advanced level and strategic inputs in the field of apparel production through major, inter disciplinary minor subjects and 3 different deepening specialisations. Other subjects in the form of General Electives and Floating Majors have been included in order to enhance the overall development of students and to provide added inputs thus traversing the knowledge spectrum from academic to holistic.

From the semester I to semester V, all students are oriented towards the fashion industry, apparel production technology, pattern making and garment construction, apparel production management, apparel quality management and introductory courses in Fashion marketing, retail management, applications of artificial intelligence, technical textiles, entrepreneurship, database management for apparel business and industrial engineering among other subjects.

### Majors

Apparel Production Technology major will prepare Technomanagers with expertise in the core areas of mass manufacturing of apparel viz. Apparel Technology, Production Planning, Industrial Engineering, Sustainable Production, etc.

The Apparel Production Management pathway is aimed towards imparting knowledge on the various managerial aspects and application of Information technology in apparel manufacturing business.

Apparel Product Development, starts with Engineering drawing and conversion of 3D object into 2D shape through draping techniques and goes up to development of complex product. This pathway emphasises on developing the hands on skill of the students in the area of Pattern making and Garment construction employing the best industrial practices.

### **Deepening Specialisations (DS)**

From semester V, students who are already equipped with the knowledge of compulsory courses are supposed to choose and pursue any specialisation out of the three provided by the course as under:

### DS 1 : Apparel Production Technology

This deepening specialisation is aimed to fortify the student's understanding of Manufacturing Technology, practical exercises in designing of a manufacturing set-up, with introductory inputs on Robotics and Mechatronics and their applications in the Industry. Floating specialisation in form of study of ergonomics environment, Lean Manufacturing and sustainable production add to the versatility of the student.

### DS 2 : Apparel Production Management

The specialisation strengthens the knowledge of production management through advanced inputs on Quality management and executive inputs on Logistics, Data Analytics, Social responsibility and web development among others. Fashion Forecasting, Supply Chain Management and Information assurance and security as floating specialisation subjects help in cementing the knowledge acquired inh this specialisation.

### DS 3 : Apparel Product Development

Students who want to deepen their knowledge of patternmaking, anthropometry and sizing, solving fit issues, apparel grading and making of contoured apparel may take up this specialisation. The specialisation provides advance knowledge of aforesaid subjects. The floating specialisation subjects Garmenting (Jackets), Garmenting (Kidswear), Garmenting for contoured apparel, aim at further deepening the knowledge acquired in this domain along with giving a free hand to the design creativity of students opting for the product development specialisation.

In the final semester, students undertake their graduation project either commissioned by a business concern or on their own. The knowledge assimilated during their course of study in Bachelors of Fashion Technology finally is to be put to test

i ( †

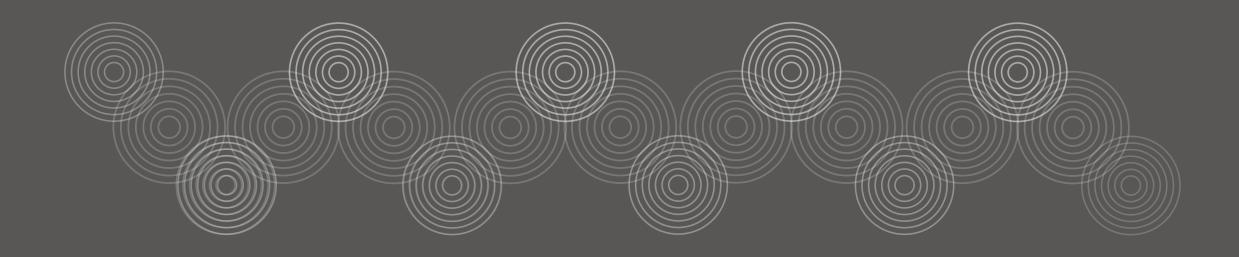

in the industry where students work on innovating processes, developing new products, providing efficiency enhancement through systematic research.

### **Career Pathways**

Apparel Product development: With a combination of core and deepening specialisation in this pathway, students will be able to join the industry in the areas of Sampling Room Coordinator, Technical Audit Manager, Fit Analyst, Production Merchant, Product Manager, Product Engineer etc.

Apparel Production Technology: With a combination of core and deepening specialisation in this pathway, students will be able to join the industry in the areas of Production Planner, Production Manager, Lean System Manager, Sustainable Manager, Plant Manager, Industrial Engineer, Work study Manager etc.

### M. Des Master of Design

### Master of Design

'Master of Design' degree caters to the multi-disciplinary and dynamic nature of job profiles that seek professionals who can work in versatile environments. Research is one of the tools that empower one to take up challenges, which may emerge in contemporary complex systems. Therefore, this course builds its specialisations based on the foundation of design thinking and research practice.

Graduates of this programme would be equipped to hold key positions in large design, fashion or corporate houses in the areas of Design Thinking and Research, Craft Design, Special Needs, Publication & Graphics, Media writing & design, Lifestyle Products, User Experience & User centered design depending on the area of specialisation pursued by each student through a pedagogic structure that enables individual pathways within 4 deepening specialisations offered in the course focusing on various design industry domains.

(The above mandate is based on the assumption that the students applying for Master of Design Programme would be familiar with fundamentals of design theory).

### Maiors

Major subjects culminate in to areas which create the Interdisciplinary Foundation of MDES. The course unifies its core on four systems namely Trends Research & Forecasting, Design for Sustainability, Design Thinking & Innovation and Design Research. Synergetic in themselves they create the foundation on which MDES course is designed to create a 360 degree learning curve.

Grounded in ethical practices of research, students can tailor their strengths through a cross-pollination of subjects and create a niche professional space.

The course of MDES Creates a formal setting for 'Industry connect' to initiate a synergy between students Industry and Academia, through which an initiation is carried out to achieve industry project briefs, culminating into the Industry guided project. This gives each student a practical experience to take this further towards final semester in to the Dissertation project of a larger scope.

### **Deepening Specialisations (DS)**

Students have to choose any one specialisation based on prior academic, professional background, and skills acquired. Deepening specialization will be available subject to meeting the capping of minimum and Maximum number of students.

### DS 1 : Design for Society

Design for Society specialisation looks at design in the context of society. Today designers are working along with various agents and agencies to solve the complex social problems and are designing for social change. It also enables the students to critically evaluate the social, ethical and ecological issues in design. The students will learn theories of Social Innovation and apply them to design problems in the real world and use design for active social engagement and change.

### DS 2 : Experience Design

The skill sets of designers today are not limited to creation of Career pathways in MDES are the broad professional areas mere objects but include creation of services and experiences. emerging from the deepening specialisations supplemented Experience is the result of people's interaction with designed by Major subjects. environments. The richer the experience for the user the more successful is the design. Once the students are equipped with Some avenues include Social Sustainable Management, the conceptual framework of experience design, they learn Designing for special needs, Craft Design for communities, to apply it in the fields of Human Computer Interaction, User User Experience Design, Space Design - Exhibition, and Interface and User experience, signage & information design, Museum & Designing for commercial Spaces, Design graphics and content curating. Spatial applications will range Innovation Strategy, Consumer Insight research, Retail from exhibitions, museums, retail and other built spaces. Design, Pure Research, Design Criticism & Academics, Media Writing; Blogging, Curation in Culture and design. DS 3 : Design Strategy Apart from the pathways mentioned above Design Innovation Practice & Innovation management, Pure and Strategic Design Management deals with study and application Applied Research, Trend forecasting for design & fashion of design methods and advanced processes for uplifting the industry, Systems Design & Sustainable Design practice and industrial practices. It deals with core understanding of theories Forecasting are emerging careers.

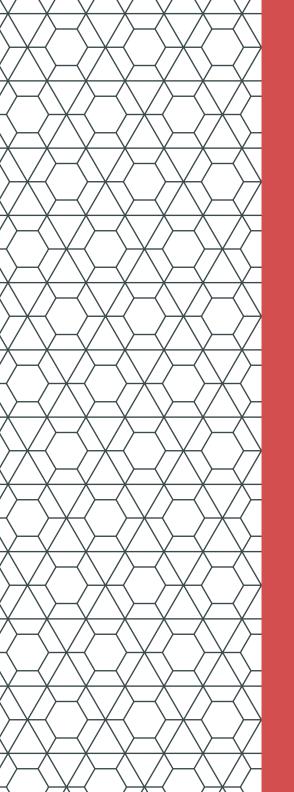

of strategy and addresses application of design beyond mere aesthetics by using analysis, critical & design thinking and creates value for identified businesses. Branding design is very much a part of the strategy today and is moving towards design driven consumer market. The course aims to orient the

students in branding and identity of products or services and address the issue how design can help capitalize on national and international levels.

### DS 4 : Theoretical Studies in Design

Theoretical Studies in Design trace the birth and evolution of man's design history. It critically examines this process through analytical and practical modes of enguiry. It is an interdisciplinary field that probes in the questions that have impacted design decisions towards shaping human environment over the years. It spans various fields like art and architecture, urban planning, communication, cultural studies and demographics through qualitative grounded theory approach. The curriculum attempts to ask basic questions to find the most sustainable ways of designing. The course also equip students with the skills in the emerging area of curatorial practices

### Career Pathways

### MFM Master of Fashion Management

### Master of Fashion Management

To develop world class professionals in the areas of fashion management, marketing, merchandising, and retailing; to produce future entrepreneurs who are equipped with fashion product, technology, analytical and managerial skills and knowledge with right industry connect.

Students undergo in-depth education in management, marketing, buying, merchandising (retail and export), retail operations, international marketing, international trade practices and project formulation, Entrepreneurship and also on an important aspect of interdisciplinary aspect of fashion. They are exposed to creative merchandising/marketing, innovative fashion management practices, Information technology developments, cluster studies, sustainability, directions of fashion trends and business practices, through field visits and industry internships.

The department maintains an active collaboration with the industry through several consultancy projects undertaken by the members of the faculty and also through the internship and graduation projects, class room projects done by the students.

### Majors

Major subjects refer to the core domain of the department. The purpose of the first semester major subjects is to prepare a firm background and foundation, on which further specializations can be built, in the area of Marketing, Merchandising, Understanding of Fabrics, and Research and Statistical as well as Information Technology application in it. The understanding of these basic disciplines is further enlarged and substantiated in the subsequent semester with subjects like Supply chain management, Omni Channel Retailing, Consumer Behavior and Neuro Marketing, Luxury Brand Management, Fashion Brand Management, Strategic and Innovation management, Big data and analytics etc. The purpose of the major subjects is to groom the students in the key areas that are necessary for a domain specific management course the "Fashion Management Studies". The progression of the subject is such that continuity of knowledge is maintained. Self-study by the students is encouraged as part of curriculum.

### **Deepening Specializations (DS)**

Deepening specialization subjects are meant to allow the students to specialize in a specific area leading to a particular pathway. The areas for deepening specialization are Marketing and Retailing, Entrepreneurship and International Business. The student can choose any one area for in-depth study throughout the course.

### DS 1 : Marketing and Retailing

The specialization provides an opportunity to gain in-depth understanding of Customer Experience Management, Retail operations, Omni-channel Retail, E commerce etc.

### DS 2 : Entrepreneurship

The Entrepreneurship would equip the students with the skills to understand the nuances of feasibility study and business laws, report making to setup his enterprise.

### DS 3 : International Business

The International Business as a deepening specialization aims to provide a nuanced understanding of the size and nature of global business, EXIM documentation, export marketing. All these specialization would help the student to focus and perform at higher level.

### Career Pathways

The Marketing & Retailing specialization covers the subjects like customer experience management and retail operations, Omni channel planning and buying, E commerce, fashion promotion mix and social media marketing, branded entertainment. This would lead to careers as Retail buyer, retail planner, store manager, visual merchandiser, retail trainer, mall manager, retail consultant, brand executive, social media analyst, social media marketer, content marketing, event manager, E-commerce merchandiser, marketing and sales professional, luxury store manager.

International business specialization covers the subjects like global fashion business, export merchandising and EXIM documentation, global marketing and costing and profitability. This would lead to careers as export merchandiser, buying house merchandiser, sourcing manager, logistics manager, global business development manager, sampling merchandisers, compliance officer, vendor management executive.

Entrepreneurship specialization covers the subjects like Entrepreneurship business models and success stories, business idea generation and feasibility testing with live projects, family business management, business plan, laws and integrated project. This would lead to careers as entrepreneur, social entrepreneur, NGOs, academician, cluster manager/marketer, Consultant for rural marketers.

### M. F Tech Master of Fashion Technology

### **Master of Fashion** Technology

The two year Masters course in Fashion Technology is a unique programme of study in the field of apparel manufacturing and allied supply chain in India. The course aims to develop future ready techno-managers / operation managers par excellence by Students of each specialisations will study 10 core subjects, adopting an analytical approach through research in innovative and disruptive technologies all the while focusing on life skills for developing socially and environmentally responsible professionals. The course is aimed at graduate engineers and technologists who are looking to diversify in the field of fashion technology by providing them domain knowledge of textile and apparel.

Students may choose a specialized realm of study, such as Operational Excellence, Smart Factory and Smart Garments wherein they will learn the technical aspects of the same. MFT classroom teaching is reinforced with regular field visits to industries present in the apparel supply chain. Students also get opportunities to experience and relate their classroom learning while undertaking internship with relevant industry. Additionally inputs of entrepreneurship and developing of business plans are provided to encourage willing students to explore the glorious path of being an entrepreneur. The program requires the student to undertake a thesis in the field of their choice to research and derive solutions by way

of collaborating with domestic and international companies utilizing classroom learning.

08 subjects of deepening specialisation (DS), 03 subjects of Interdisciplinary Minor (IDM) and 06 (six) General Electives (GE) subjects over three semesters. In final semester the students will carry out their dissertation projects in their choice of areas. The students will also have options of studying maximum three floating subjects (from a bouquet of six subjects) over three semesters. The students will undergo craft cluster study for one week at the end of first semester (during winter break) and apparel internship for 8 weeks at the end of 2nd semester (during summer break).

The M.F.Tech course differentiates itself by adopting a holistic approach towards content delivery: where students will be oriented to the bigger picture first and then drilled down to the building blocks. The student will conduct additional iterative environmental and situational analysis. Encouragement to see, learn, practice and build solutions. Strong emphasis on Lab: a transformative educational environment, where students will spend lot of time analysing, experimenting in state of art lab.

### Maiors

The core / major subjects deal with pattern making, garment construction, technology for sewn products, guality management and apparel manufacturing which will be undertaken by all the students.

### **Floating Majors**

Additional knowledge enrichment for willing students is imparted through them taking up floating majors for extra credit. Floating major subjects aim to introduce the students to the aspects of data science, research methods, Intellectual Property Rights, E-Commerce, International business etc.

### **Deepening Specialisations (DS)**

From semester II, students are supposed to choose and pursue any specialisation out of the three provided by the course as under:

### DS 1 : Operational Excellence

This specialization allows the student to develop capability of managing manufacturing systems which focus on Production efficiency, Lean Principles, Sustainability, Ergonomics, Quality management, Operations, Value-chain / Integrative Management etc. The course enables the student to explain the concepts of operational management in the areas of facility design, guality management, and lean applications across apparel supply chain with special focus on best practices of sustainability. The students will be able to calculate sustainability index of various apparel manufacturing processes, find out the efficiency of supply chain and standard time in apparel production and compare sustainable practices, factory layouts and supply management matrices to augment decision making capabilities.

### DS 2 : Smart Factory

This specialization allows the student to develop Industry 4.0 capabilities such as Artificial Intelligence, AR/VR, Industrial Internet of Things, Big Data, Cloud Computing, 3D printing, Robotics etc. for fashion supply chain. The course enables the student to develop knowledge about cyber-physical systems like Mechatronics, IOT, etc. The subjects under this specialisation provides the opportunity to develop skills in machine learning

algorithm and process automation and enables them to develop solutions for smart manufacturing organizations integrating machines, devices, sensors and people.

### DS 3 : Smart Garments

This specialization allows the student to develop capabilities in the areas of Technical Textiles, Anthropometry, 3D body scanning, 3D simulation, Smart-wearables, Stitchless garments and garments for special needs. The course enables the student to understand the application of 3D body scanning in the fields of anthropometry, sizing, manufacturing and retail and gain knowledge of technical, intelligent textiles and smart wearables. The students are equipped to use scanners to extract measurements, develop patterns, virtual garments and virtual try-ons and develop products and solutions using stitchless joining of materials and integration of electronics.

### Career Pathways

### Pathway I - Operational Excellence

The students choosing this specialization will be geared to take their positions in the field of production, operations, and supply chain in managerial positions in the apparel industry to guide the setups in tune with the global requirements; The areas of Production Planning, Production Manager, Lean System Manager, CSR mangers, Sustainability operations, Quality Managers, Plant Manager, Industrial Engineer are some of the identified careers.

### Pathway II - Smart Factory

The students choosing this pathway will be able to garner positions in the research and industry areas where emerging technology usage and improvisation is the focus. The possible career positioning may be in Automation areas, in areas of application and management of Information Technology, Research and development in machinery and its usage, R&D in systems, data analysis for the industry etc.

### Pahway III - Smart Garments

The students taking up this specialization will find positions in the areas of using varied knowledge of the product in research as well as industry focussed application of technical design and/or collaborative development of innovative products for apparel and non-apparel industry. Some identified career options may include those of Technical Audit Manager, Fit Analyst, Production Merchant, Product Manager, Product Engineer, R&D in wearable technology etc.

## ΔU

The new curriculum of accessory design offers a lot more flexibility through choice of Inter Disciplinary Minors (IDMs). This combination teaches them more than one skill and empathy to collaborate across disciplines, while also trimming the redundancy. The department offers three IDMs; two for undergraduates (Fashion Accessories & Home Accessories) and one for the post graduates (Fashion Accessory Trends)

### IDMs for UG

### IDM 1: Fashion Accessories

Students get to understand fashion accessory categories, their cultural context. Influence of local and global trends on accessories. They gain ability to visualize concepts for fashion accessories and choose appropriate material in realizing the prototype. They get to conceive fashion accessory design project to execute a feasible design solution and develop prototype.

### IDM 2: Home Accessories

Students understand home accessories in culturalinter personal context. They get the sense the size and structure of the home décor industry and clearly visualize the opportunity in this space. They gain skills to create visual architecture with respect to home accessories. Explore different techniques, assemblies, material combinations for home accessories. An opportunity to ideate & conceive home accessories design project based on a clear need articulation and develop tangible prototype.

### INTER DISCIPLINARY MINORS

### IDM for PG

Fashion Accessory Trends (PG) Students understand the spectrum of fashion accessories categories. They get to do cultural trend mapping and forecasting. Translate trends to concept development in context to fashion accessories. They are enabled to interpret trends and apply to develop user profile for a design brief. Experience a variety of materials and process that are related to accessory development. Students may conceive a fashion accessory design project to execute a feasible design n solution and develop prototype.

Fashion Communication offers three Inter-Disciplinary Minor subjects for the students of other UG and PG programmes. Communication Design and Display & Presentation Design for UG and Styling and Display Design for PG students.

### **IDMs for UG**

IDM 1 : Communication Design

Students develop professional competencies in graphic, sign and symbol design, brand identity, styling, image processing and narration through a variety of print, media, and digital formats.

IDM 2 : Display & Presentation Design In Display & Presentation Design the students will be exposed to live and hypothetical projects where they create and design for varying target markets and learn about the relationship between concept design and practical realisation. They would be able to create the right image both within and beyond the store's physical structure.

### IDM for PG

### Styling & Display Design

Styling and Display Design is a perfect mixed bag for styling design to produce students who are creative, with specific skills in trend forecasting, analysis, and interpretation of style and brands. They can apply these skills to the present and emerging technologies in the global fashion industry with the inputs of the image capturing through photography.

Fashion Design offers three Inter-Disciplinary Minor subjects for the students of other UG and PG programmes. fashion Studies and Fashion Representation for UG students and Fashion Process for PG students.

### IDMs for UG

### IDM 1 : Fashion Exploration

This stream of study will enable students to comprehend, ideate and create basic fashion products. Offered along 5 subject areas this pathway enables the students develop a grasp on clothing and fashion history, techniques of developing patterns, constructing basic women's wear apparel, illustrate and identify the historical and contemporary fashion represented through cinema. The learnings gained from this stream when put to use in conjunction with the main specialisation will enable the student to conceptualize and develop basic women's wear apparel.

### IDM 2 : Fashion Representation

The subjects under this stream of study focus on understanding modes in which fashion is represented. The 5 subject progression under this pathway traversing through history, illustration, fashion visage fiction, and styling enables the student to grasp the verbal and visual language of fashion. This pathway is offered to students to supplement the fashion knowledge gained from their respective specialisations to further aid in discussing and appreciating fashion represented through the medium of art, literature and cinema.

### IDM for PG

This pathway offers 3 courses which encapsulate and empower the students with a basic understanding of fashion within the areas of history, pattern development and illustration/ fashion image through cinema. The stream will add to the existing knowledge of the chosen specialisation and enable the students to articulate the fashion learning in tune with their area of work.

### **Fashion Process**

The Inter Disciplinary Minor subject areas that are offered for UG students of other Department are World of Knits and Fashion for Sports and Knitwear & Merchandising for PG students.

#### IDMs for UG

#### IDM 1 : World of Knits

World of Knits aims to introduce students to the delectable world of Knitwear and helps them work with knitwear such that they are able to develop garments, accessories and home products - using both the aesthetic and tactile elements of the knit fabric. Learners at the end of this course will be able to work confidently with knits and use them as a creative medium to develop a range of fashion products. Design, Art and Aesthetics, Hand knitting, Hand flat knitting, Sustainability, Zero Waste, Recycling, Up-cycling, Customization, Versatility of knits as a medium, Yarn to Product are the highlights of the IDM.

#### IDM 2 : Fashion for Sports

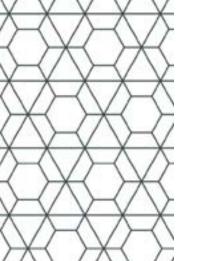

"Fashion for Sports" is aimed at giving an orientation towards the most versatile and the fastest growing category in fashion business - Sportswear. It introduces the learner to the various components of Sportswear as a category, and draws distinction between Casual, Active, Performance sports and Athleisure. The subject also introduces the learners to parameters for selection of fabric and trims for developing Sportswear, and equips with skillsets to handle the same.

Ergonomics, Performance, Functional clothing, Technical Textiles, Pattern making and construction, Stretch fabric are the highlights of the IDM.

#### IDM for PG

#### Knitwear Merchandising

Knitwear Merchandising aims to give the learners a holistic understanding of managing the specifics of the Knitwear Business. It provides inputs on merchandising the Knitwear market, technical details on product development and costing (for circular and flat knits), Target market, Fabric identification, Sizing, Pattern Making, Garment Production, Seams Finishes for Knitwear Apparels, Costing of Knits, Quality control for knits are the highlights of the IDM.

The Department of Leather Design offers two Inter Disciplinary Minors for other UG programmes, viz. (i) Leather Fetish & Cult Fashion and (ii) Leather Lifestyle Products, and offers one Inter Disciplinary Minor for PG programmes, i.e. Luxury Products.

## IDMs for UG

#### IDM 1 : Leather Fetish & Cult Fashion

As an IDM offered to other departments, the Leather Fetish track helps students of other disciplinary domains to add the leather fetish product category into their knowledge and skills portfolio thus increasing the fashion value quotient and also career options. Across the semesters, students are taken through the overview of Industry, classification of fetish product & outerwear, concepts and trends of fetish & cult fashion, Sub-culture, material understanding of leather, leather alternates & surfaces, design & prototyping process. The track would culminate with the students developing a range of fetish products and outerwear with a holistic understanding of leather application.

#### IDM 2 : Leather Lifestyle Products

Given its versatility and luxury lifestyle quotient, students are taken through the overview of the industry, classifications, fashion trends, leather as a material for creative & lifestyle expressions and its infinite applications. As students graduate, they would develop a holistic understanding of leather lifestyle product development that constitutes home furnishing corporate gifts and office accessories.

## IDM for PG

#### Luxury Products

This track offered to the PG students takes one through a graduated mindset of design & design approach, heritage & storytelling, quality benchmarks, price roofing and anti-laws of marketing. A luxury orientation prepares the mind to view product as a compelling story and thereof understand the characters that build it. With this new mindset, the student is trained to approach a product with a heightened consciousness of design philosophy & its application, and supporting drivers that keep the product unique. Designing and prototyping to demonstrate understanding wind up the track.

Textile Design offers three Inter-Disciplinary Minors for the students of other UG and PG programmes. Textile Structure & Surface and Textile Appreciation for UG and Textile Manufacturing and Sourcing for PG students.

### IDMs for UG

#### IDM 1 : Textile Structure & Surface

The Textile Structure and Surface minor will give an insight into the elements of textiles through a hands-on approach. The students will engage with different materials and processes to delve into the nuances of textile design, from developing prints, textile colouration by way of dyeing and printing to weaving on the loom. Further, the minor introduces students to a gamut of textiles from across the world, sensitizing them to the regional variations, in terms of colour, motifs and techniques for design inspiration. The students from varied disciplines will also get an opportunity to digitally illustrate application of their textile design ideas as per their core specialisation.

#### IDM 2 : Textile Appreciation

The Textile Appreciation minor will provide a comprehensive understanding of textiles and its application in different fields. The students will be familiarized to different fabrics and their end use. The minor focuses on sensitizing students to the rich textile heritage of India and enrich their minds to the vast range of traditional textiles from different parts of the world. The students will also get an opportunity to apply the elements and principles of design to ideate and express through textiles. Exploring and manipulating materials will give a direction to communicate effectively with textiles. The students will gain an insight into the global cutting-edge textile trends.

## IDM for PG

Textile Manufacturing & Sourcing

The Textile Manufacturing & Sourcing minor will impart an understanding of textiles, enhancing fabric experience and assessing performance, comfort and aesthetic attributes for suitable end application. The students will examine the yarn and fabric quality parameters and learn about textile testing methods and evaluation as per global standards. The minor will draw attention to the relevance of textiles in the global economy and lay emphasis on domestic and international fabric sourcing strategies for different textile products, keeping in view costing and lead times.

**F**TECH

The Fashion Technology department offers four Inter Disciplinary Minor subjects for the students of other UG and PG programmes.

## IDMs for UG

IDM 1 : Apparel Manufacturing Process The Inter Disciplinary Minor (IDM) "Apparel Manufacturing Process" enables the students to understand the impact of suitable technology in achieving manufacturing excellence. It will also enable students to identify suitable technology and help them in taking business decisions.. Apparel production is one of the most challenging and dynamic domain of the apparel manufacturing chain.

IDM 2 : IT applications for Fashion Business The Inter Disciplinary Minor (IDM) "IT applications for Fashion Business" offered by department of fashion technology offers a wide range of subjects to enable the students to be abreast of the state-of-the-art technology. This IDM makes the students understand data, its management and importance in business processes and applications and, to manage the business data and design dashboards for effective decision making.

## IDMs for PG

E-Business E-business.

IDM 1 : Apparel Product Management The Inter Disciplinary Minor (IDM) "Apparel Product Management" caters to the specific requirements of the students and provided them a much neededorientation of the field of Apparel Production Management, Apparel Production Techniques and Apparel Quality Procedures and Practices.

IDM 2 : IT essentials for Fashion

The Inter Disciplinary Minor (IDM) "IT essentials for Fashion E-Business" offered by department of fashion technology offers a wide range of subjects to enable students to understand all the important attributes of fashion e-business The students will develop skills on front end design, back end design and develop a dynamic website for fashion

Master of Design offers two Inter Disciplinary Minor subjects for the students of other UG and PG programmes. Lateral Thinking and Innovation for UG and Trends and Culture for PG students.

#### IDM for UG

#### IDM 1 : Lateral Thinking & Innovation

This course helps identifying and honing student's own creative potential. This is done through appreciation and criticism of appropriate or inappropriate design issues and opportunities within the particular area of design. Applying lateral thinking skills while building creative confidence, this course will introduce students to different creativity theories that will lay the foundation for a strong design process understanding, and a deeper insight of the personal skills and expertise that design thinkers utilize in all phases of the design process, leading to articulation of one's own design ideas through a range of mediums including drawings, prototypes and presentations.

The possible career pathways are Visualizer, Art Directors, Storyteller, Critical Problem Solver, Design Thinker, and Design Innovator & Entrepreneur.

#### IDM for PG

#### Trends & Culture

The set of courses being offered under "Trends and Culture" will function as an umbrella within which the students will develop a critical understanding of Trends and visual culture in contemporary society and the inter-relationship within. The course will enable the students to learn the tools for identifying and capturing new trends and articulate them within the socio-cultural context, eventually applying it for a relevant market. They also get exposed to the theories of visual culture studies and visual analysis, which enables them to encode and decode the images for trend analysis and forecast. The knowledge gained would prepare the students as Trend Researchers and Forecasters.

The possible career pathways are Media analyst, Visual Semanticist, Fashion Merchandiser, Trends spotter & Visual Researcher.

# MFM

A set of GEs will be proposed by the campus, keeping in view the availability of the course and the overall credit requirement for the semester. Some GEs offered for UG Programme are also offered for PG programme.

# **Industry Connect**

The new curriculum of NIFT attempts to give the student a rich and NIFT Alumni envisaged the necessity and importance of repertoire of experience and understanding that will hopefully Industry engagement through: inculcate a desire and a capability for lifelong learning and will Interaction with Industry leaders and alumni in the classroom stand him or her in good stead in these disruptive times of Sponsored classroom projects change. Industry engagement is envisaged as a learning process Industry visits Exposure to exhibitions and fairs which, by providing exposure to the students in real life working • environment as part of an academic curriculum helps them to Internships develop and enhance academic, personal and professional Joint research endeavours • competencies coupled with deeper understanding of the ethics Hands-on practical learning experience in industry environment to be transacted within the curriculum structure. and values that distinguish a good professional. A significant part of the engagement programme is based on regulated exposure of the students to the industry environment as part Critical to this new perspective would be the planning of of the course curriculum under the guidance of both academia Industry Engagements and scheduling them in coordination and industry. The revised curriculum structure of NIFT arrived with the industries as per the requirement to transact the new curriculum in the UG & PG Programmes offered by NIFT and through deliberations, workshops and interactions involving internal experts and eminent academicians, industrialists its campuses.

# **Grassroot Connect**

As a leader of fashion education in India, NIFT realizes the importance of its social responsibilities and continues its endeavour to create grounded designers who are able to appreciate and promote the various crafts of India.

The Craft Cluster Initiative, has provided the students with continuous exposure to Indian culture and traditional handloom and handicraft clusters thus providing an opportunity for creative innovation and experimentation at the grass root level. Through this craft exposure NIFT students have endeavoured to be 'Young Change Agents', utilizing the skills of the handloom

and handicraft sectors for developing niche contemporary products.

The experienced NIFT faculty have contributed by monitoring the student activities; through customized training programmes and with design inputs, thereby enhancing the commercial value of products being manufactured by the artisans. Such exposure and interactions have provided a stronger rural connect and a greater understanding and appreciation of Indian culture and aesthetics to the young design professionals.

# **Global Connect**

The academic strategy of NIFT embraces internationalism. provides excellent opportunities to NIFT as well as international Over the years, NIFT has consciously enhanced its international students to interact with students from various geographies, visibility and standing among other reputed fashion institutes encouraging them to broaden their vision and understand abroad. NIFT has strategic agreements and partnerships with different cultures. The 'study abroad' opportunity offered to 26 leading international fashion institutes & organizations the international students is available across all the 16 NIFT that share the same academic direction. On one hand this campuses and under various course disciplines. gives NIFT students a unique opportunity to integrate with the global mainstream of fashion by opting for the exchange To provide an academic gradient, the Institute's international program with collaborating partner institutes and on the other, linkages allow the students to participate in international presents the international students with plethora of similar competitions/seminars/research and other events. In addition 'study abroad' options under exchange programs at NIFT. Thus to this, the strategic alliances offer options of enhancement

of academics or joint research initiatives at faculty level through faculty exchange. This ensures constant up-dation & up gradation of teaching methods and facilities making NIFT faculty at par with the best institutes in the world.

To facilitate exchange of teaching pedagogy, concepts and professional ideas, the faculty at NIFT participates in academic exchange programs, international fairs, seminars, exhibitions, conferences and trade shows thereby bringing substantial experience to the classroom and enriching the knowledge pool at NIFT.

NIFT - Fashion Institute of Technology (FIT), New York, USA strategic partnership provides a unique opportunity to select meritorious NIFT students to obtain Dual Degree from both NIFT and FIT. Students from NIFT undertake two years study at the home Institute intercepted by one year of study at FIT. Thereafter, the students resume their studies at NIFT to obtain the Dual Degree from both the institutes.

The institute also attracts international students to NIFT offering experiences in academic and cultural richness. NIFT and Swiss Textile College, Switzerland partnership allows NIFT is also a member of the prestigious International the STC students to developed valuable insight not just into Indian culture, arts & crafts but also have understanding of the Indian market and its dynamics through short term summer

programmes.

Academic collaboration between NIFT and Bangladesh University of Fashion & Technology (BUFT) provides unique opportunities to the students of the two institutes. It offers BUFT students to undergo semester exchange at NIFT while BUFT facilitates NIFT students to carry out Apparel Industry Internship and Graduation Projects/ Research Projects at Bangladesh.

Some of the key institutes with whom NIFT has an association are Queensland University of Technology, Australia; De Montfort University, UK; Glasgow School of Arts, UK; Swiss Textile College, Switzerland; ENSAIT, France; NABA, Italy; ESMOD, Germany; Saxion University of Applied Sciences, Netherlands; Amsterdam Fashion Institute, Netherlands; Bunka Gauken University, Japan; University of Northampton, UK; Politechnico di Milano, Italy; KEA - Copenhagen School of Design and Technology, Denmark; North Carolina State University, USA; The Savannah College of Art and Design (SCAD), USA and many more.

# **Placements**

At NIFT, we are proud of the dynamic and motivated students who are mentored and supported to take on the challenges and opportunities that await them in the Industry. The graduates of NIFT understand the nuances of fashion business spanning art, craft, technology and strategy and have acquired the skill sets that will make them adapt to the growing needs of the industry.

Graduates of NIFT have been provided cutting edge understanding through exposure to emerging challenges, developments, techniques, technology and practice from all over the world. During their programme at NIFT, the students undergo a metamorphosis that unfolds their potential, develops skills and stimulating intellectual growth. Their latent potential is honed by committed and skilled faculty drawn from the academia and industry. We are aware of the fact that fashion industry wants professionals having multi-skill sets and we have trained our students accordingly.

The Campus Placements provides a platform for the graduating students from various disciplines of the two years post graduate, and four years undergraduate programmes to realise their professional dreams and ambitions and thus requires the keen and sustained participation of employer organisations. NIFT graduates carry the energy, creativity, skill, technical know-how and the legacy of their predecessors to merge as invaluable assets to the organisations that they are inducted into. The National Institute of Fashion Technology has a centralized placement process. Companies can employ students from any campus or course of the institute through two routes which are

#### 1. On Campus Placements

facilitated by the institute:

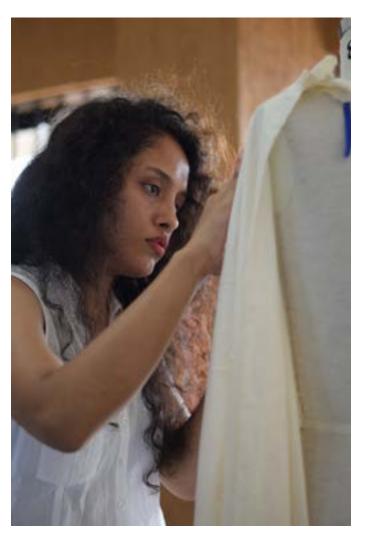

2. Pre-Placement Offers (PPO) Companies can extend a job offer to students before the on-campus placement. These offers may be made on the basis of internships/training/ projects undertaken by the students in the said company.

#### 3. Off-Campus Placements

Upon completion of Campus Placements, the institute continues to facilitate job opportunities to its Graduates through Offcampus drive where companies that could not participate in

campus placements raise requirements through the Industry & Alumni Affairs (I&AA) unit.

Placements and job opportunities in NIFT are on an upward trajectory - with greater overseas opportunities, greater number of pre placement offers, higher pay packages etc. NIFT has embarked on a new restructured curriculum, which has incorporated new and emerging areas including disruptive technologies and taken initiatives for higher industry engagement.

# **Events & Activities**

Student Development Programmes at all NIFT campuses has been institutionalized to encourage students to participate in extra-curricular pursuits making their stay at NIFT campus more holistic and complete. Participation in these activities complements academic studies while providing ways to socialize, relax and be revitalized to face day-to-day challenges of student life.

Students participate in wide range of activities through Student Development Activity Clubs viz., Cultural Club, Literary Club, Sports, Adventure & Photography (SAP) Club and Ethics, Social Service & Environment (ESSE) Club. Through the academic

term, student clubs function in the activity hour called 'zero hour' every Wednesday evening. Also, at most NIFT campuses, a sports gymnasium is available to students.

'Fashion Spectrum', the annual fest of the institute provides a pulsating platform for students to showcase their talent in varied inter-collegiate and intra-collegiate activities & events. To promote interaction across campuses, the best of best from all campuses compete at 'Converge', an annual centralised cultural and sports event hosted by any one NIFT Campus. The annual convocation of graduating students is hosted by the Campus.

# Alumni

As leading agents of change, NIFT Alumni are reconfiguring the institute's constellation of achievements and success stories. The alumni are adding value in different work scenarios, both in India and overseas. About 31000 + alumni are working with the industry in key decision making positions and are instrumental in shaping the future of fashion business.

Some of them are brands themselves. Others are excelling in the domain of entrepreneurial dynamics. NIFT alumni are also actively taking their knowledge to the grassroot levels, working towards enhancement of the craft pockets of the country. The linkage between Alumni and their alma mater continues. NIFT

### Labs & Workshops

#### Computer labs

In this era of digital transformations, the success of fashion professionals rests on their ability to integrate fashion and information technology in a meaningful way. The information technology infrastructure is playing a key role in providing an IT-enabled learning environment, with the objective of developing computer savvy, well-rounded professionals. All academic departments maintain computer labs thereby integrating IT with the academics. The computer labs are well equipped with state-of-the-art equipment like Macintosh work stations, Desktops, Plotters, Digitizers, Image Scanners, Wide Format Printers, Sound Mixers, Digital Cameras, etc. All NIFT campuses are covered by the National Knowledge Network (NKN) with connecting speed of 100Mbps/1 Gbps.

Video conferencing facilities are available for inter-campus communication. NIFT campuses have fully Wi-Fi enabled setups offering access to secure Internet for the students and faculty. This allows learning to move outside the classroom where students can discuss, learn and grow. All academic programmes of NIFT offer IT applications as part of their curriculum.

NIFT imparts teaching inputs in industry specific CAD software for Apparel Design, Textile Design, Footwear Design, Leather Most NIFT campuses are equipped with a Dyeing & Printing Products Design, Graphic Design and Accessory Design lab that is maintained by the Textile Design Department. The programmes. Apart from the specialised industry specific lab provides a stimulating learning environment where the software, IT inputs for Animation, 2D/3D Modeling, Photo students test their theoretical knowledge by gaining practical Imaging and Editing, Enterprise Resource Planning, Product insight and exposure. The infrastructure allows the students to Lifecycle Management, Production Planning and Scheduling; understand, appreciate and learn different dyeing and printing Statistical Analysis and Web Programmeming are integrated techniques. into the academic curriculum. The institute promotes brilliance without boundaries. Students from different disciplines are Technology labs encouraged to use art labs & studios across disciplines. This NIFT realises the significance of the role of Technology in integrated approach to learning promotes interactivity, arriving modern technical education. The technology labs not only at one creative language. The Institute invests in the latest support the classroom teaching but also enhance academic equipment to introduce the updated teaching practices to the deliverance by providing practical insight to the students. The class set. Institute has developed well-stocked Technology labs at all campuses.

### Photography lab

Photography lab includes the most advanced hardware used by Knitwear labs domain experts. It is equipped with state-of-the-art suspended Elinchrom lights and motorized backdrops, various accessories The Department of Knitwear Design is equipped with state like diffusing materials, extensions & radio triggers, Manfrotto of the art machinery required to familiarize the student tilt-pan tripods etc. enhance the learning experience for with industry set-ups. This includes specialised manual and students. The infrastructure provided not only helps students computerized machines for seaming and finishing finedevelop awareness of old and new photography practices gauge circular knit fabric as well as manual flat-knitting and

but also assists them in realising ambitious production based projects.

## Pattern making & draping labs

Course disciplines imparting inputs in apparel design & apparel technology, maintain pattern making & draping labs. These labs are stocked with specialised pattern making tables & dress forms. The infrastructure provides an environment that allows the students to rigorously apply and contextualize concepts and processes of realizing garments. These labs are the breeding ground for heightened creativity, unique approach and innovative perspectives in relation to garment making.

## Weaving labs

Textile Design Department maintains a weaving lab that is equipped with tabletop sample looms, offering an effective integration of theoretical and practical inputs to students. The infrastructure provides a creative space for students to arrive at a holistic approach to enquiry and exploration from an individual perspective in relation to materials, processes and methods within the domain of woven structures.

## Dyeing & printing labs

linking machines facilitating an understanding of CAD. This infrastructure provides the students with an opportunity to explore practically and develop design possibilities in their field.

#### Garment technology labs

Most NIFT campuses are equipped with specialised labs specific to garment technology. RFID fitted lab, ETON system lab, patternmaking lab etc., provide a complete learning environment to students creating a pathway to unmatched career opportunities in the apparel industry. The infrastructure provides an ideal sensitisation to contemporary practices in apparel technology methods and techniques.

#### Accessory Design workshop

Owing to a strong industrial approach, Accessory Design Department maintains a state-of-the-art lab that houses machines & equipment essential to material handling

techniques, model and prototype making. Laser cutting machines and metal & wood lathes allow the students to integrate theoretical knowledge with substantial practical learning. The lab provides a stimulating workspace for students to acquire a holistic understanding of machinery and material.

#### Leather Design labs

The Department of Leather Design allows students to gain hands on experience in processes and methods in relation to handling leather as a material. The department maintains a well-equipped lab that houses the latest technology in sewing and finishing for leather apparel, footwear, leather goods & accessories. Infrastructural framework of machinery for cutting, splitting, skiving, engraving, embossing, sewing, fusing, construction and finishing, etc."

#### **Resource Centres**

In the 21st century, information is the most important resource and knowledge management is the most crucial function in an organization. The Resource Centre (RC) in each NIFT Campus provides the necessary infrastructure to collate and disseminate this critical input.

The Network of NIFT Resource Centres is the only Fashion Information System in India serving the fashion professionals, would-be professionals and fashion educators. Its integrated collection of print and non-print materials is the only systematically documented source of information available in India for the study of international and contemporary Indian fashion. The system is a decentralized network, partially automated and is co-ordinated by the National Resource Centre (NRC) at NIFT, New Delhi. The Resource Centres also provide information services to the design community and the industry.

#### $C \\ {\sf OLLECTIONS}$

- Following are the highlights of the collections:
- The print collections include books and periodicals pertaining to fashion studies and related disciplines.
- A rich collection of e-books and other digital resources including leading online databases are available for reference.
- All RCs subscribe to leading international fashion forecast services and journals on Fashion and Textiles.
- The audio-visual materials in CDs and DVDs are primarily used as teaching aid. AV collections pertain to history of costume and art; fashion illustration, garment manufacturing and design collections of NIFT graduates.
- The reference collections of RCs comprise manuals, standards, reports, news clippings, trade catalogues from manufacturing industries and retailers; and other information sources.
- RCs showcase designer clothing and regional costumes of

India. International collections include costumes from different countries of the world and garments from leading multinational fashion houses. Selective design collections of the graduating students (now well-known designers) are documented and inventoried in RCs.

• The Textile collections in RCs have fully documented and methodically arranged collections of fabrics (displayed fabric and region-wise), export fabrics and latest international fabrics procured from leading trend services.

• RCs also have collections of Fashion Accessories and Findings containing all the materials required to complete a garment.

#### SERVICES

All RCs use e-Granthalaya, an integrated multi-lingual library management software, developed by the National Informatics Centre (NIC) for collection management and offering numerous proactive information services. The significant features of the system include Union catalogue, Web OPAC, Advanced search, Article Index, Barcode based circulation and Cloud Ready Application.

#### REFERENCE SERVICES

Highly qualified professional staff offers reference service through online mode as well as in print.

#### ONLINE PUBLIC ACCESS CATALOGUE (OPAC)

RCs using multi-user version of the library management software offer access to the catalogues of print and non-print collections via both LAN and the Internet.

#### BIBLIOGRAPHIC SERVICE

Subject bibliographies on topics relevant to the fashion industry are available online. Bibliographies on any topic are also printed on demand.

INDEXING SERVICE Online indexing service is an important research tool for easy retrieval of journal literature on fashion and related areas in the NIFT library.

#### CURRENT AWARENESS SERVICE

Lists of new additions to the collections of books, audiovisuals and periodicals are available online.

#### CIRCULATION SERVICE

All RCs offer circulation services for selective collections of recommended reading materials. The bar-coded charging system ensures data accuracy and fast check-in and check-out at the circulation counter.

#### REPROGRAPHIC SERVICE

Selective reprographic services of photocopying and scanning are provided to the users at all RCs.Thematic displays and exhibitions are organ ized occasionally.

#### Digital Repositories Development

The Resource Centres are engaged in developing digital repo sitories of institutional research and publications. Valuable print and non-print collections are being converted into electronic format. The entire reference collections of graduation project reports, audio-visual materials, textiles and costumes spread across the network of RCs are being digitized into an interactive multimedia format.

# **Amphitheatres & Auditoriums**

NIFT aims at providing an exceptional student experience. The institute promotes academic inclusiveness but with an equal focus on student development through co-curricular opportunities. In most campuses, the amphitheatre is the hub of all student activity. Interesting architecture and high-end infrastructure allows students to indulge in a variety of activities in the amphitheatre. Some NIFT campuses are equipped with world-class hydraulic ramps that provide an in-house infrastructural framework for fashion shows and other creative pursuits. The halls / auditoriums provide the venue for peer and industry interaction through talk shows, seminars, exhibition & display.

Film nights, dance recitals, music shows, intra-collegiate & intercollegiate events are mostly conducted in the amphitheatre. Emphasizing on all round development of its students, the

# **Student Facilities**

#### Canteen

Most NIFT campuses are housed with a cafeteria that provides fresh, hygienic and healthy food at reasonable rates. The variety of food available and a friendly atmosphere makes the cafeteria an ideal place for students to relax and interact with their peers. Almost all cafeterias are Wi-Fi enabled, allowing the students to utilize their free time to the fullest.

#### Housing

NIFT facilitates residential accommodation for girls at most campuses. The NIFT hostels are run on a no profit/no loss basis. All the hostel premises including the ones being run by private enterprises are provided with round the clock professional security, a doctor on call and hostel warden(s). Recreation facilities like television, some indoor and outdoor games are also available in the hostels.

#### Health Care & other

Medical aid is available on campus. Every NIFT Campus provides an infirmary/sickbay to its students. A doctor and nurse are available to attend to general medical concerns of the students. A psychologist is also available on Campus to counsel students.

( ( | | |

#### **On-campus Counsellor**

On-campus professional counsellor is available at all NIFT campuses.

#### **Against Ragging**

Ragging in educational institutions is strictly banned and any student indulging in ragging is liable to be punished appropriately, which may include expulsion from the institution.

कृपया ध्यान दें कि निफ्ट के पास उल्लिखित किसी भी परीक्षा केंद्र को रद्द करने का अधिकार है। ऐसे मामले में, एक वैकल्पिक केंद्र आबंटित किया जाएगा। उम्मीदवार संबंधित प्रश्नों को ई–मेल nift@applyadmission.net अथवा admissions@nift.ac.in पर मेल कर सकते है।

गैट (जी.ए.टी.) परीक्षा के लिए उम्मीदवार से टिप्पणियां/आपत्ति प्राप्त करने हेतु लिंक

निफ्ट प्रवेश परीक्षा में उपस्थित होने वाले सभी उम्मीदवारों को ओ.एम.आर. उत्तर पत्र की कार्बन कॉपी के साथ प्रश्न/उत्तर के प्रति आपत्तियों को आमंत्रित करने के लिए सामान्य योग्यता परीक्षा (जी.ए.टी) के प्रश्न पत्र को अपने साथ ले जाने की अनुमति होगी। प्रत्येक सिरीज की उत्तर कुंजी को निफ्ट की वेबसाइट पर अपलोड किया जाएगा ताकि उम्मीदवार अपने उत्तरों की जांच कर सकें। उसी के लिए विंडो 17 फरवरी, 2021 (10:00 बजे) से 20 फरवरी, 2021 (17:00 बजे) तक खोली जाएगी और यदि उम्मीदवार की प्रश्नों, उत्तरों (रेस्पॉन्स) और उत्तर कुंजी के प्रति कोई भी टिप्पणी/आपत्ति (आपत्तियां) हैं तो प्रति टिप्पणी/आपत्ति हेतु रु.500/– का भुगतान कर इस अवधि के दौरान वे अपनी टिप्पणी/आपत्ति (आपत्तियां) दे सकते हैं। इसके लिए लिंक निफ्ट वेबसाइट www.nift.ac.in पर ही अपलोड किया जाएगा।

आपत्तियों को केवल ऑनलाइन आपत्ति लिंक के माध्यम से प्रस्तुत किया जाना चाहिए, जो 20 फरवरी, 2021 (17:00 बजे) तक लाइव रहेगा। संचार/चैनल के किसी भी अन्य माध्यम से प्राप्त आपत्तियों पर किसी भी परिस्थिति में विचार नहीं किया जाएगा। यदि अभ्यर्थी निर्धारित अवधि में अपनी आपत्ति प्रस्तुत नहीं करते हैं, तो ऐसे अभ्यर्थियों को बाद के स्तर पर पुनर्मूल्यांकन के लिए किसी भी न्यायालय में किसी भी कानूनी दावे के लिए कोई अधिकार नहीं होगा ।

प्रवेश (एडमिट) कार्ड

परीक्षा केंद्र में प्रवेश केवल एडमिट कार्ड के साथ ही होगा।

निफ्ट आवेदन फॉर्म में दी गई जानकारी के आधार पर, अनंतिम रूप से पात्र उम्मीदवारों के एडमिट कार्ड www.nift.ac.in अथवा https://applyadmission.net/nift2021 पर उपलब्ध 1 फरवरी, 2021 से डाउनलोड किए जा सकेंगे। एडमिट कार्ड डाक से नहीं भेजे जाएंगे। उम्मीदवारों को सलाह दी जाती है कि वे अपडेट के लिए एन.आई.एफ.टी. वेबसाइट को नियमित रूप से देखें।

नोट : एडमिट कार्ड, परीक्षा परिणाम और काउंसलिंग शेड्यूल केवल निफ्ट की वेबसाइट पर उपलब्ध होगा। डाक द्वारा कोई अलग से पत्र व्यवहार नहीं किया जाएगा।

#### परीक्षा केंद्र

उम्मीदवारों को परीक्षा शुरू होने से कम से कम 60 मिनट पहले परीक्षा केंद्र पर पहुंचना चाहिए। परीक्षा केंद्र के अंदर मोबाइल एवं अन्य इन्फोटेक गैजेट्स ले जाने की अनुमति नहीं होगी।

जिन अभ्यर्थियों के पास मोबाइल अथवा अन्य इन्फोटेक गैजेट मिलते हैं, तो उन्हें परीक्षा केंद्र से बाहर निकाल दिया जाएगा और उन्हें अयोग्य घोषित कर दिया जाएगा।

#### शेड्यूल

तिथि : 14 फरवरी, 2021.

कार्यक्रम	परीक्षा	परीक्षा समय
डिजाइन स्नातक (बैचलर ऑफ डिजाइन)	सी.ए.टी	10.00 बजे से 01.00 बजे तक
	जी.ए.टी	02.30 बजे से 04. 30 बजे तक
डिजाइन स्नातकोत्तर (मास्टर ऑफ डिजाइन)	सी.ए.टी	10.00 बजे से 01.00 बजे तक
	जी.ए.टी	02.30 बजे से 04. 30 बजे तक
फैशन प्रौद्योगिकी स्नातक (बैचलर ऑफ फैशन टेक्नोलॉजी)	जी.ए.टी	10.00 बजे से 01.00 बजे तक
फैशन प्रौद्योगिकी स्नातकोत्तर (मास्टर ऑफ फैशन टेक्नोलॉजी)	जी.ए.टी	10.00 बजे से 01.00 बजे तक
फैशन प्रबंधन स्नातकोत्तर (मास्टर ऑफ फैशन मेनेजमेंट)		10.00 बजे से 01.00 बजे तक

प्रवेश परीक्षा का परिणाम एन.आई.एफ.टी. वेबसाइट पर प्रदर्शित किया जाएगा।

गैट तथा कैट की लिखित परीक्षा के परिणाम के आधार पर, शॉर्टलिस्टेड बी. डिजाइन उम्मीदवारों को सिचुएशन टेस्ट नामक दूसरे टेस्ट के लिए बुलाया जाएगा। बी.एफ.टेक उम्मीदवारों के लिए, गैट चयन के लिए अंतिम परीक्षा होगी। एम.डिजाइन के लिए उम्मीदवार गैट तथा कैट से लिए जाएंगे। एम.डिजाइन के नामले में जी.ए.टी और सी.ए.टी के परिणाम के आधार पर और एम.एफ.टेक तथा एम.एफ.एम के मामले में जी.ए.टी. परिणाम के आधार पर उम्मीदवारों को समूह चर्चा/व्यक्तिगत साक्षात्कार (जी.डी./पी.आई.) के लिए बुलाया जाएगा।

#### महत्वपूर्ण सूचना

परीक्षा के लिए आवेदन करने वाले उम्मीदवारों को यह सुनिश्चित करना चाहिए कि वे प्रवेश के लिए सभी पात्रता मानदंड को पूरा करते हों।

परीक्षा के सभी चरणों अर्थात् लिखित परीक्षा, सिचुएशन टेस्ट, समूह चर्चा और साक्षात्कार (जैसा भी मामला हो) में दाखिला निर्धारित पात्रता मानदंडों को पूरा करने के अधीन अनंतिम होगा। लिखित परीक्षा, सिचुएशन टेस्ट, समूह चर्चा और साक्षात्कार (जैसा भी मामला हो) के पहले अथवा बाद में किसी भी समय सत्यापन के दौरान यदि सही नहीं पाए जाते हैं कि उम्मीदवार मानदंड को पूरा नहीं करता है तो बिना कोई सूचना दिए अथवा आगे के संदर्भ के परीक्षा/प्रवेश के लिए उसकी उम्मीदवारी निरस्त समझी जाएगी।

इस तरह के निरस्तीकरण के कारण निफ्ट किसी भी परिणाम के लिए उत्तरदायी नहीं होगा।

टेस्ट वेटेज

प्रवेश परीक्षा की अंतिम मेरिट सूची में प्रत्येक परीक्षा के लिए निर्धारित वेटेज निम्नलिखित होगाः

कार्यक्रम	परीक्षा	भारित
डिजाइन स्नातक	सी.ए.टी	50%
( बैचलर ऑफ डिजाइन)	जी.ए.टी	30%
	सिचुएशन टेस्ट	20%
डिजाइन स्नातकोत्तर	सी.ए.टी	40%
(मास्टर ऑफ डिजाइन)	जी.ए.टी	30%
	जी.डी./पी.आई	30%
डिजाइन स्नातकोत्तर (मास्टर ऑफ डिजाइन)	जी.ए.टी	100%
फैशन प्रौद्योगिकी	जी.ए.टी	70%
स्नातकोत्तर (मास्टर ऑफ फैशन टेक्नोलॉजी)	जी.डी./पी.आई	30%
फैशन प्रबंधन स्नातकोत्तर	जी.ए.टी	70%
(मास्टर ऑफ फैशन मेनेजमेंट)	जी.डी./पी.आई	30%

दो उम्मीदवारों के समान स्कोर होने के मामले में, बड़े उम्मीदवार (जन्मतिथि के अनुसार) को वरीयता दी जाएगी।

#### लिखित परीक्षा के घटक

सामान्य ज्ञान एवं सामयिकी	15	15
कुल	100	120

प्रश्नों की संख्या प्रत्येक खंड में और प्रत्येक वर्ष के लिए प्रत्येक पाठयकम हेत् अलग-अलग हो सकती है। पाठयकम के लिए प्रश्नों में कठिनाई का स्तर भिन्न हो सकता है।

#### 2. रचनात्मक क्षमता परीक्षण (कैट) :

यह परीक्षा उम्मीदवार की अवधारणा विकास और डिजाइन एम.एफ. टेक में कुछ प्रश्न इंजीनियरिंग क्षेत्र से भी होंगे। क्षमता में सहज क्षमता और अवलोकन की शक्ति को परखने के लिए दोनों यू.जी. और पी.जी. डिजाइन प्रोग्राम के लिए प्रशासित है । परीक्षण का एक महत्वपूर्ण पहलू रंग और चित्रण कौशल का रचनात्मक और अभिनव उपयोग है ।

उम्मीदवारों जो उत्तर पुस्तिका पर कोई लिखित निजी ब्योरा सामान्य क्षमता परीक्षा के घटक (सभी कार्यक्रमों हेत्) अथवा किसी जगह कोई पहचान चिहन द्वारा अपनी पहचान का खुलासा करने के कोशिथ करता है तो उन्हें 'अयोग्य घोषित कर दियें जाने पर पर विचार किया जाएगा और इन उम्मीटवारों का परिणाम घोषित नहीं किया जाग्गा।

#### लिखित परीक्षा संरचना

प्रश्नों की संख्या प्रत्येक खंड में और प्रत्येक वर्ष के लिए प्रत्येक पाठ्यकम हेत् अलग–अलग हो सकती है। पाठ्यकम के लिए प्रश्नों में कठिनाई का स्तर भिन्न हो सकता है।

1) मात्रात्मक (क्वांटिटेटिव) क्षमता ः यह उप–परीक्षा उम्मीदवारों की मात्रात्मक क्षमता का परीक्षण करने के लिए बनायी गयी है। उप-परीक्षा में योग, गुणन, भाग, भिन्न, प्रतिथत, ब्याज

की दर, वर्क तथा टास्क, अनुपात और प्रोपोरेशन तथा दूरी से दी जाएगी। संबंधित प्रश्न शामिल होंगे।

2) संप्रेषण क्षमता और अंग्रेजी समझ ः इस उप-परीक्षा का दिन-प्रतिदिन अंग्रेजी कें संप्रेषण में उम्मीदवारों की भाषा की क्षमता का परीक्षण करना उददेश्य है। इसमें पर्यायवाची, विलोम, संबंधित अर्थ के साथ शब्द, बहुवचन, एक शब्द विकल्प, मुहावरे और वाक्यांथ, सही वर्तनी, एक दिए गए पैराग्राफ से एक स्थिति को समझने इत्यादि के प्रश्न शामिल होते हैं ।

3) विश्लेषणात्मक क्षमता और तार्किक क्षमता : इस उप-परीक्षा दी गई जानकारी से अनुमान और तर्क हेत् उम्मीदवार की क्षमता का परीक्षण करने के लिए बनाया गया हैं और दी गई समस्या की पहचान करने हेत् उम्मीदवार की क्षमता का मूल्यांकन और समस्या के मूल मुद्दों को हल करने में तर्क लगाना। अवधारण ा। और रचनात्मकता की प्रैक्टिस और पार्श्व सोच का उपयोगी होने की संभावना है।

4) सामान्य ज्ञान और सामयिकी ः यह उप–परीक्षा उम्मीदवार के सामान्य ज्ञान और सामयिकी का परीक्षण करने के लिए बनाया गया है।

5) केस स्टडी : यह उप-परीक्षा एक उदयोग वातावरण की स्थिति पर आधारित है। यह उम्मीदवार की प्रबंधन क्षमता का मुल्यांकन करने में मदद करती है ।

लिखित प्रवेथ परीक्षा से मास्टर्स प्रोग्राम के लिए शॉर्टलिस्ट किए गए उम्मीदवारों को केस स्टडी आधारित समूह चर्चा (जी.डी.) और साक्षात्कार (पी.आई) से गुजरना पडता है। जीडी. में सौंपे लिखित प्रवेथ परीक्षा से सूचीबद्ध उम्मीदवारों को सिच्एशन गए केस स्टडी पर लगभग 15 से 20 मिनट की चर्चा शामिल परीक्षा/समूह चर्चा (जी.डी)/ लागू के अनुसार साक्षात्कार होगी. जिस पर विशेषज्ञों का एक पैनल विभिन्न मापदंडों पर करना आवथ्यक है (बी.एफ.टेक को छोडकर)। उम्मीदवारों का मूल्यांकन करेगााः

#### सिच्एशन परीक्षा – यू.जी. डिजाइन प्रोग्रामों हेत्

लिखित प्रवेश परीक्षा से बी.डिजाइन हेतु सूचीबद्ध उम्मीदवारों को सिचुएशन परीक्षा देना आवश्यक है जो दिए गए सेट के साथ दी गई सिच्एशन पर सामग्री हैंडलिंग और अभिनव क्षमता के लिए उम्मीदवार के कौशल की मुल्यांकन परीक्षा है।

कोई अतिरिक्त सामग्री प्रदान नहीं की जाएगी/की अन्मति नहीं

मॉडल का स्पेस विज्अलाइजेशन, अभिनव और दिए गए सामग्री का रचनात्मक उपयोग, तत्वों की संरचना, रंग योजना, निर्माण कौशल, मॉडल और समग्र प्रस्तुति इत्यादि पर मूल्यांकन किया जाएगा। इन मानकों का मॉडल संरचना के पीछे अवधारणा की व्याख्या करने के साथ जांच की जाएगी। चूंकि निफ्ट में शिक्षा का माध्यम अंग्रेजी है, लेख अंग्रेजी में किया जाएगा। किसी अन्य भाषा में लिखने के लिए कोई अंक नहीं दिया जाएगा ।

मॉडल/डिजाइन बनाने में बाहरी/अतिरिक्त सामग्री के उपयोग की अनुमति नहीं है। इसके अलावा, उम्मीदवार जो मॉडल/डिजाइन/ राइट–अप पर किसी भी व्यक्तिगत विवरण को लिखकर अथवा कोई भी पहचान चिह्न लगाकर अपनी पहचान का खुलासा करने की कोशिश करते हैं, तो उन्हें ''अयोग्य'' घोषित किया जाएगा और इन उम्मीदवारों का अंतिम परिणाम घोषित नहीं किया जाएगा ।

मूल्यांकन का मौके पर ही जूरी द्वारा परीक्षण किया जाएगा। भविष्य के संदर्भ हेत् मॉडल को संरक्षित नहीं किया जाएगा ।

#### समूह चर्चा तथा साक्षात्कार(जी.डी./पी.आई) – सभी पी.जी. प्रोग्रामों के लिए

- 1) वैचारिक स्पष्टता
- 2) निर्दिष्ट विषय (संप्रेषण) का ज्ञान
- 3) विषय (संप्रेषण) में किया गया योगदान
- पारस्परिक कौशल
- 5) नए विचारों को उत्पन्न करने की क्षमता
- 6) समस्या को हल करने का तरीका
- 7) नेतत्व के गण
- 8) प्रभावी संप्रेषण

#### व्यक्तिगत साक्षात्कार

उम्मीदवारों का व्यक्तिगत साक्षात्कार में एक पैनल द्वारा निम्नलिखित सूचीबद्ध के रूप में विभिन्न मापदंडों पर मूल्यांकन किया जाएगाः

1) कैरियर उन्मुखीकरण

2) पाठ्यक्रम हेत् प्रवत्ति

व्यक्तिगत उपलब्धियाँ

4) संप्रेषण

5) सामान्य जागरूकता और अभिक्षमता, रचनात्मक और पार्थव विचार

#### सफल उम्मीदवारों हेत् परामर्श सत्र

परीक्षा प्रक्रिया अर्थात मोड, दिनांक और प्रक्रिया के सफल उम्मीदवारों की काउंसलिंग का विवरण मई/जुन 2021 के महीने में वेबसाइट पर उपलब्ध होगी। उम्मीदवार को आगे की जानकारी हेत् निफ्ट वेबसाइट को नियमित रूप से देखने की मार्च 2021 का वेतन प्रमाण पत्र आदि। सलाह दी जाती है।

#### दाखिला के लिए आवश्यक दस्तावेज
